Portfolio | LinkedIn | Homagama, Colombo | 072 0689 254 | i.shahidaibrahim@gmail.com

PROFILE

Bachelor of Computer Science graduate from Eastern University, Sri Lanka, and Associate Software Engineer with 2 years of professional experience in Angular development. Skilled in designing, developing, and maintaining scalable, responsive web applications within Agile/Scrum environments. Strong background in RESTful API integration, front-end architecture, bug fixing, and production support. Proven ability to collaborate with cross-functional teams to deliver high-quality, defect-free solutions within strict timelines.

SKILLS

- Frontend : **Angular, HTML5, CSS3, JavaScript/TypeScript, Figma, WordPress**
- Backend : **Spring Boot**
- Databases : **MySQL, DbVisualizer**
- Version Control & CI/CD : **Git, Tortoise SVN, Jenkins**
- Testing & Quality : **Postman, SonarQube**
- Other Tools : **Grafana, JasperSoft**

EXPERIENCE

1. Associate Software Engineer (Yoors - Colombo 3)

August 2024 - January 2026

i. Project - Enterprise Insurance Policy Management System.

(Angular | DbVisualizer | Tortoise SVN | Jenkins | JasperSoft)

- Develop and maintain scalable Angular web applications with responsive, user-friendly interfaces.
- Write clean, maintainable code using SonarQube standards to ensure long-term project quality and efficiency.
- Collaborated with cross-functional teams to understand requirements and deliver effective technical solutions.
- Conduct unit testing, coordinating with QA teams, and supported the timely deployment of production releases.
- Integrated RESTful APIs into Angular applications and translated requirements into scalable front-end solutions.
- Analyzed issues and UAT reports to find root causes and implement fixes, reducing error rates by 70%.

ii. Project - Web Analytics Dashboard

(Angular | Node.js | Grafana | Figma | MySQL | Tailwind)

- Collaborated with UX/UI designers and backend developers to build the web analytics dashboard.
- Integrated Grafana dashboards with secure embedding, giving stakeholders visualizations of KPIs and trends.

2. Intern Software Engineer (Kapruka Holdings PLC) July 2023 - January 2024

Project - Vendors Management System

(Angular | MySQL | GIT | Spring Boot)

- Developed and maintained scalable, responsive Angular front-end applications and Spring Boot backend services.
- Integrated RESTful APIs to enable seamless frontend-backend communication.

3. Trainee People's Bank (October 2018 – March 2019)

- Assisted in resolving customer inquiries and operational issues.
- Assisted in daily banking operations, including cash handling.

PROJECTS

- AI Chatbot – Built using Retrieval-Augmented Generation (RAG), a lightweight LLM, vector database, Angular
- Insurance System – Full-stack application using Angular and Spring Boot (Ongoing)
